

Property report for May 18th Church Council Meeting

1. Via email on June 1st, Tapio moved “That Council approves contracting Tandem Tree Service to prune two trees and remove two trees including grinding down their stumps at the cost of \$1,950 plus HST as per their attached quotation dated May 25th.” Jeremy seconded this motion and was unanimously approved by Council via email.

Tandem Tree Service is scheduled to perform pruning and tree removal this Wednesday, June 16th at 8 am. The grinding down of two stumps will be performed after and within 30 days. Tapio and Jeremy will be on site to inspect and approve their work. Tandem has agreed to leave 8 to 9 cubic yards of wood chips. Tapio and Jeremy will spread these wood chips onto the east wall flower bed.

2. Over the past 6 months, Tapio has received 5 quotations for replacement doors. He has reviewed and selected the best three companies to meet with and obtain finalized quotations. Once received, Jeremy and Tapio will review them and recommend one of these contracts to Council.

3. All four defective wall mounted sanitizer dispensers will be removed and will not be replaced with Purell ones since they are expensive to continue to be maintained. Large pump bottles with non-fragrant sanitizer will be sourced and set out on sturdy surfaces.

4. Before the heat waves hit, Jeremy installed an A/C unit in the church office.

5. Jeremy continues to make periodic building inspections.
